

## BTEC Business students visit St Gemma's Hospice

The Lower 6 BTEC Business students visited St Gemma's hospice on Friday 11<sup>th</sup> October. The visit was to assist them with their coursework which involves comparing two different types of organisations.

The students had a tour of the facilities which are used by people needing palliative care. They met key members of the charity and gained a deep understanding of how the charity functions, fundraises and measures success.

There are many activities St Gemma's run to help raise the funds which are needed to keep the charity going; one of which is a small stall, this is where some of the students found and purchased their lovely pink slippers! The students are looking forward to working with St Gemma's in the future to support their fundraising initiatives throughout the year.
