

Lower 2 learn about our school community

In Lower 2 PSHE, we have been learning about our school community. We discussed different job roles and how the importance of each one. The children then ranked the jobs based on which they thought were the most vital to our daily school life. After lots of discussions and switching around, we decided that each and every job is incredibly important, and that without all of them, our school wouldn't function like it does every day. The children showed a great appreciation of all school staff and how they help them.
