

Lower 3 Pop Art topic

In art this half term, Lower 3 have started their Pop Art topic. We have looked at various artists and famous pieces of Pop Art and began creating our own. The children have used the grid method to copy a famous painting and have begun the process of making their very own 'soup cans' painting inspired by Andy Warhol. They used the charcoal printing method (and some winter sun to their advantage!) to repeat their soup can outlines identically across the page and have come up with some very imaginative soup flavours! I can't wait to see the finished results!
