

Upper 3 trip to Maths City

On 6th November half of Upper 3 went to visit Maths City in Trinity Centre, Leeds. Maths City is the UK's first National Mathematics Discovery Centre; an interactive space in which visitors can enjoy and appreciate the power and importance of mathematics as a tool for understanding the world in which we live.

Pupils also were able to work together to build a Leonardos Dome. I was really impressed at the way in which pupils picked up the pattern and worked together to build this stable structure. Stable enough to climb underneath!

We are looking forward to going again with the other half of Upper 3 next week.

Scroll down to see some photos of pupils enjoying some of the puzzle and exploring mathematical concepts.
