

Inspirational people presentations in PSHE

Why is it essential to have inspirational figures to look up to? That's the intriguing question we've been exploring through our PSHE 'inspirational people' presentations. Each pupil has been tasked with creating and delivering a short presentation spotlighting individuals who serve as their role models.

So far, many of our presentations have centred around a diverse array of figures, including athletes, scientists, family members, and even beloved TV personalities. Through these presentations, pupils enlighten their classmates about the journeys of their chosen figures, often sharing compelling stories of resilience and perseverance. These inspirational icons provide us with goals to strive for and reinforce the belief that hard work and dedication truly pay off.

This activity is designed to enhance our pupils' skills in research, presentation, and storytelling—essential tools for crafting motivational narratives that resonate with others. Ultimately, we aspire for Gateways pupils to achieve great things themselves, inspiring and uplifting future generations in the process. So, let the inspiration continue!
