

## Upper 4 Spanish learn about festivals in Spain

The Upper 4 Spanish pupils have been dedicating one lesson per week to exploring various cultural aspects of the Spanish-speaking world. This week they focused on the Festival of San Fermín in Pamplona, which takes place annually from July 6th to 14th. The highlight of the festival is the famous running of the bulls. The pupils learned about the traditional clothing worn during the festival, which is typically white with red accents, and how the event gained international fame after Ernest Hemingway featured it in his novel *The Sun Also Rises*.
