

Gifted and Talented artists

We have implemented a new Gifted and Talented art programme in Prep School this year. A group of our top artists have been identified as having a particular artistic flair and will experience a range of opportunities to develop this passion further. For their first project, we gave them the title 'Fantasy and Imagination'. As you can see, each child explored and created their own artwork in a unique way. It was lovely for the children to present their work to the Prep staff and explain their final outcome.

We look forward to seeing what else the children can create, and we hope to build this programme over the next few years.
