

## Spotlight on Sparx Maths achievement

By now, many of you will be familiar with Sparx Maths, an innovative platform that supports our pupils' learning journey. A key feature of Sparx Maths is the XP points system, which rewards pupils for their efforts in completing homework tasks and engaging in 'Independent Learning.' Additional XP can also be earned through positive behaviours such as excelling in bookwork checks.

This term, we are pleased to recognize a remarkable achievement. Congratulations to Lottie in Upper 3, who earned the most XP points in the entire school during the first term of this academic year. Lottie's dedication and hard work resulted in an incredible total of **16,319 XP points**.

Well done, Lottie! You've set a fantastic example for everyone.

Mrs Ivana Anderson
