

Lower 3 London timeline activity

As part of their London topic, Lower 3 vied class-against-class to complete a jumbo-sized timeline of the history of London. Working together in the teeth of a keen wind, the children demonstrated their chronological knowledge and proved they know their Londinium from their Lunenwic, their Great Fire from their Great Stink.

Lower 3AH narrowly gained the glory but both classes put in an excellent showing.

Following the outdoor activity, the children returned to the warmer and drier environs of their classrooms to consolidate their learning with spirited games of a London chronology card game, racing to build their own timelines.
