

Upper 1 life skills

Upper 1 had a blast on Life Skills day last Friday. The children worked so hard to complete a range of skills and worked together brilliantly. First, they played a variety of board games, working to support each other in learning new games whilst also playing fun competitive games. They then practised how to use money and budgeting to plan a lovely picnic with their friends.

The children took on the extraordinary challenge of building the tallest tower they could using only paper, sellotape and spaghetti. Both teams worked superbly together and strategy and creative ideas shone through in this very close battle! At lunch, the children made their own sandwiches and then got to compete in the FUNDA activities – laser tag and inflatable races. Finally, they practised tying their shoelaces, folding clothes and packing a bag (ready for our residential later this year!) and of course, tying a tie. All the children were exceptional and demonstrated their new skills with pride - well done Upper 1!
