

Upper 2 create bedrooms with 3D design

This week, Upper 2 have been using Tinkercad's 3D design capabilities to create their very own bedrooms, focusing on layout and aesthetics. The pupils explored different furniture arrangements, experimented with colours and added personal touches to make their designs unique. From stylish modern spaces to cosy, themed rooms, they thought of everything!

The project not only supports them in design but also enhances spatial awareness and problem-solving skills. I think you will agree, they look fantastic!

Mr Mike Arnold and Mr Matt Chandler
