

## Sixth Form University offers

The Upper 6 are receiving a fantastic range of offers from universities such as Warwick, Leeds, Loughborough, Liverpool and Nottingham. This is in no small measure due to their hard work in ensuring that their personal statements were so well written and all pupils submitted their applications over a month before the UCAS deadline.

Offers have included courses such as veterinary science, chemistry, law and psychology. Particular congratulations go to Phillipa, Edie and Astrid pictured above, who have received unconditional offers or scholarships for architecture, art and interior design undergraduate degrees.
