

## Gifted & Talented Art Programme - artist study

As part of the Gifted and Talented Art Programme in Prep, a small group of children have completed their second project. The children were tasked with discovering an artist or piece of artwork that they resonated with and imitated it whilst adding their own artistic flair. Some children took very well-known pieces of work and explored different media whilst others found some lesser-known artists and imitated their work more closely. Once again, the children were able to share their work with some Prep staff members as well as the members of art club.

I am so impressed with their work and creativity and look forward to seeing what they can achieve in the build-up to the Lower Key Stage 2 production as key members of the props team!

Miss Beth Adamson
