

## Lower 2 – outdoor maths

This week, we have had some beautiful weather and what better way to spend it than having maths outside! We are lucky to have an amazing view from our school field in the Prep School and it felt a shame to be inside for the first proper bit of sunshine we have had this year.

It was certainly a relaxing environment for pupils to work on their times tables. Hopefully the great weather continues and times tables practice outside may become a regular occurrence.
