## Jollof and geography: a perfect mix!

One of the things I love most about teaching geography is how it connects with so many other subjects – and how it brings the world to life.

As Lower 4 finished their unit on Nigeria, they had the chance to *literally* get a taste of the country by making Jollof rice. It was a fun and memorable way to end the topic – lots of smiles, delicious food, and a hands-on way to experience a place most of us haven't had the chance to visit (yet!).
