

## Spring term craft club

Between January and Easter in craft club, pupils learnt how to transform simple balls of fleece into characters using a single barbed needle. They created some excellent little animals, including our very own Spanish raton.

The pupils really enjoyed the opportunities for mindfulness and some have taken the skill and continued it at home.

This term we are introducing a new skill, crochet, which has been introduced by special request. Traditional skills are being given a boost at Gateways!
