

Where's the soy sauce? Learning about other cultures in PSHE...

The PSHE programme is heavily focused on key British values such as understanding, empathy and respect. Inspired by the recent Prep International Day, the Upper 3 PSHE class have been researching the cultures of a variety of countries, some of which were based on the cultural heritage of the pupils themselves. Sophie delivered a superb presentation on the Czech Republic and shared some Czech food with the group – we especially liked trying the bread and honey. She also demonstrated how to polka, and after the half term holidays, the whole group will try to learn this! Rory taught us about Kosovo and Ilay delivered a fascinating presentation on Japan, which included playing a game with chopsticks and trying some of her homemade sushi.

I look forward to some more presentations in the coming weeks.
