

Upper 3 Spanish prepare for their end of year assessment

Upper 3 have been preparing for their end of year assessments. To break up their studies and reinforce their learning, they enjoyed playing a variety of language games based on the content covered throughout the year. A particularly competitive round of "21" in Spanish ended in a well-deserved victory for Edward R - congratulations! Congratulations also to the winners of the thrilling games of Spanish word bingo.

In addition to games, the pupils have been actively identifying gaps in their vocabulary knowledge by highlighting unfamiliar words on their vocabulary sheets. They have also been working in pairs to quiz one another, helping to reinforce their understanding.

Many pupils have taken a proactive approach to revision, using strategies such as making their own flashcards, creating personalised Quizlet sets, and producing colour-coded notes to distinguish between nouns, verbs, and adjectives.

Good luck to all pupils in their end of year assessments next week!
