

High School & Sixth Form

Enrichment Week – Wednesday

Upper 4 – Leeds street art and food tour

Upper 4 enjoyed two tours of Leeds on Wednesday 1st July. The food tour took us around the stalls of Kirkgate market and the Corn Exchange where we enjoyed a blondie and cinnamon rolls from the Underground Bakery, a Tunisian wrap, two flavours of gyoza, Chinese pork and rice and then finished off with delicious ice cream. The street art tour walked us around the city centre of Leeds learning about the numerous paintings adorning the many buildings in Leeds. We also learnt about some of the statues and sculptures around the city and a little bit of history too!

Upper 3 and Lower 4 – Apprentice challenge

Pupils took on an Apprentice-style challenge and worked in teams to create an exciting new product (a sauce). They showed their entrepreneurial spirit and developed their idea, thinking carefully about their target audience, marketing materials and producing an advert and persuasive pitch. Creativity, teamwork and communication were essential as each group tried to impress our specialist judges. Well done to everyone who took part in this challenge for all their hard work, whether it was on the product creation team, the branding team, the research team or the video production team.
