

High School & Sixth Form

Enrichment Week – Thursday

Upper 3 and Lower 4 - visit to Sheffield Water Park

Once kitted out in wetsuits and buoyancy aids pupils were quick to get stuck in at Sheffield Water Park. The day began with a warm welcome from the staff, who explained the safety rules before pupils tested their confidence, balance and teamwork on the park's inflatable obstacles. Staff were impressed by the positive attitudes and supportive behaviour shown throughout the day.

Upper 4 - Apprentice challenge

High School & Sixth Form

Upper 4 faced the challenge of producing, marketing, branding and costing of a new innovative product – they had to design a new sauce. Pupils were given a selection of ingredients and a product team based themselves in the food tech room to come up with a sauce that each house had decided on. Some sauces were spicy, others smokey, but all were well thought out and prepared with creativity. Whilst the product team made the sauce, the advert teams were busy around school – some in costume, making an advertisement to promote their product. The branding team were busy making logos and labels, all of which were developed with innovative creativity and not using AI. The business team had the job of trying to scale the costings, work out profit and prepare a pitch base on the consumer research. The teams then had to present a pitch to 3 judges, Wayne from Holroyd Howe, Natalie from our finance department and Liz from marketing – the judges were very impressed with all the pitches! Upper 4 did a fantastic job, it was a very close competition but the winning house for this task was awarded to Harewood.
